Experience

Canon U.S.A., Inc. (Melville, NY)

Front End Web Developer, Sr. Specialist   *Jan. 2018 – Present*
- Lead a team for content migration, UI/UX and Development on a new portal for dealers on IBM WCM, while utilizing Jira and ALM for user stories and QA.
- Coordinate between business, IT and product groups to resolve issues, ensure smooth data transfer, and create a tailored look for a dealer audience.
- Developed real time monitors using D3, AJAX, HTML5, CSS3 and JavaScript to provide up to date reporting on sales and web traffic.
- Architected and created a custom project management web application.
- Build multiple landing pages from scratch that exist on corporate site, create custom solutions for large data handling on pages including JSON file reads through AJAX.

Web Maintenance, Specialist   *Nov. 2015 – Jan. 2018*
- Upload content, manage and maintain Dealer Extranet site for all Canon dealers through Teamsite.
- Formed and lead a special projects team to help create solutions for the company utilizing the skills of fellow coworkers at no extra cost to the company.
- Create multiple VBA macros in excel to streamline reporting.
- Developed creative solutions around complex constraints to create Microsites in a 14+ year old system.
- Managed multiple interns, teaching them about business, coding and life skills.

Web Developer, Consultant   *Mar. 2015 – Nov. 2015*
- Assisted with content migration and UI/UX upgrades to the corporate website.
- Created multiple stand-alone pages in HTML5/CSS3 for product groups inside of Documentum.
- Helped launch new products on the main consumer site.

MKTG Inc. (East Islip, NY)

Programmer   *Aug. 2012 - Mar. 2015*
- Created and managed online surveys.
- Programmed in HTML5, CSS3, VBScript, JQuery and JavaScript for frontend development.
- Manipulated template data to make custom surveys look and work to client specifications.
- Compile, extract, and modify data from surveys using SQL statements and VBScript macros in Excel.
- Worked on multiple projects at once while managing my time effectively.
